

Luxury living in vibrant West End

“Riverpoint has been attracting local buyers with its sophisticated home designs in a chic inner-city location with the added appeal of being pet-friendly.”

LIVE in luxury surrounds in one of Brisbane's most vibrant suburbs, West End at Stockwell's riverside development Riverpoint.

The apartments and sub-townhouses embody exclusive riverfront living and the 30 dwellings that remain for sale are priced between \$710,000 and \$2.5 million.

Riverpoint has been attracting local buyers with its sophisticated home designs in a chic inner-city location with the added appeal of being pet-friendly.

Residents are allowed pets that weigh less than 10 kilos within the apartments.

Because of the location beside the river, there are plenty of open spaces surrounding the development to exercise pets with easy access to walking paths along the river and Orleigh Park basically on the doorstep of the complex.

Riverpoint's key position in West End means residents have easy access to a variety of restaurants and cafes, boutiques and funky specialty stores.

The multicultural hub and thriving cosmopolitan suburb is close to South Bank, cultural and arts precincts as well as the city.

Situated on the most elevated position on the West End peninsula, Riverpoint is to be completed over three stages.

The first stage is set to be completed later this year and will boast facilities including a fully maintained herb garden, secure landscaped grounds with a recreational pool, gymnasium and change facilities, and a high level of security with card access to lobbies of all buildings and entrances.

Each of the apartments feature quality fixtures and fittings throughout including European appliances in the master chef-

designed kitchen, heated towel rails, reverse cycle air conditioning and broadband internet. The precinct ticks all the boxes for many different people with its contemporary design, quality finishes, city-fringe and waterfront location, on-site facilities and intelligent layout.

Purchasers and prospective buyers can now keep up-to-date with the progress of construction with the live webcam at www.riverpoint.com.au or drop into the display suite on Riverside Drive from 10am-4pm daily to see firsthand what the development can offer.
