

MEDIA RELEASE

1st September 2009

Riverpoint Display Apartment now complete. Experience the spicy end of West End.

Inspired by the signature riverfront location in West End, Riverpoint Apartments' stunning architecture can now be appreciated first hand by visiting their new display apartment.

The magnificent, fully furnished three bedroom display apartment is situated in the riverfront building called *Symmetry* on Riverside Drive, West End.

The apartment captures the essence of indoor/outdoor living and is built to a standard that is destined to set a new benchmark for luxury apartments in the culturally eclectic suburb of West End.

The closest residential apartment development to the CityCat terminal at Orleigh Park, Riverpoint Apartments is a leisurely cycle along the riverfront to the CBD and South Bank.

Riverpoint Apartments is another milestone achieved by developer Stockwell which also developed 'Regatta Apartments', the first residential development constructed in the West End river precinct.

“Essentially, we have drawn from our experience and understanding of West End to create an elegant haven that complements the local area”, says Mark Stockwell, Managing Director of Stockwell.

“The display apartment illustrates the uncompromising standard of the development and will give prospective purchasers a sense of how their lifestyle could be transformed.”

“A number of our residents and their pets will be moving into their new luxury apartments in November. They are excited about moving in before the end of the year, settling into the West End lifestyle and enjoying their first Christmas here,” says Mr Stockwell.

The display apartment showcases the quality fixtures and fittings used throughout the development and the spacious open-plan kitchens fitted with the latest European appliances, created in collaboration with celebrated chef, Philip Johnson (from Brisbane’s e’cco Bistro).

Riverpoint appeals to a range of demographics because it delivers on the market's universal desires for contemporary design, quality finishes, intelligent lay-out, city-fringe / waterfront location, parking and storage provisions, on-site facilities, landscaping, and cosmopolitan setting.

Facilities include landscaped gardens, recreational pool, gym and a fully maintained residents’ herb garden.

The display apartment provides prospective purchasers with an opportunity to come and see why Riverpoint is the perfect lifestyle destination.

Visit our display apartment, Riverside Drive (telephone 1300 885 628), open daily from 10 am until 4 pm and see first hand the beauty of living by the river, the convenience of being so close to wonderful facilities and the cosmopolitan culture that is West End.

The Developer

Stockwell brings to Riverpoint Apartments over 55 years experience as a leading development, construction and property management company, in residential, retail, commercial, industrial and leisure projects.
